

## REACH Substances of Very High Concern (SVHC)

---

Dear Sirs,

Merefsa is working closely with our suppliers to ensure that all our manufactured articles will comply with the requirements of REACH.

As far as we are currently aware none of the substances on the current SVHC candidate list (January 2014) is contained more than 0.1% in the products we produce.

If at any point in the future we receive information from our suppliers that there is a potential risk of an SVHC being present, we will inform all customers affected and work closely with them to resolve any issues this could raise.

If you require further information, please contact:

Merefsa:

MEREFSA SL  
C/ COBALTO, 101
