

Silicone

Sponge silicone sheets

We make a standard manufacture in sponge silicone of 0.25 gr/cm³ in broken white, although we can manufacture plate silicone molded in densities ranging from 0.2 to 0.8 g/cm³ in any basic color from a minimum quantity.

In permanent stock, we have sponge silicone sheet calendared in broken white, with a width of 1000 mm and thicknesses ranging from 2 mm to 15 mm. Also, from a minimum order, we can supply iron sponge molded from 1.6 mm to 40 mm in 1000 mm x 1000 mm, in any color and quality.

We offer high temperature formulations (up to +250 °C) and food contact formulations (FDA).
